

2012 Service Priorities

The Priorities remain unchanged from the 2009-2011 Service Priorities, however in four of the Priorities goals have been removed or slightly revised.

Priority: Focusing on Child & Youth Safety *(No changes made)*

Violence committed upon and by youth continues to be an issue of great concern for the community and the Toronto Police Service. It is vital that we work to address the safety and security needs of children and youth. The safety of youth in schools, bullying, youth non-reporting of victimization, and the need to build trust and positive relationships with youth were all identified as issues of particular concern in the 2008 Environmental Scan and consultations.

Goals:

Increase safety in and around schools and promote student trust and confidence in police.

Performance Objectives/Indicators:

- ◆ increase in student perception of safety in and around school
- ◆ increase in proportion of students who feel comfortable talking to police
- ◆ decrease in assaults, robberies, and weapons offences on school premises

Provide youth with crime prevention and safety information, and encourage reporting.

Performance Objectives/Indicators:

- ◆ increase in proportion of students who say they received some crime prevention/ safety information
- ◆ increase in proportion of students who would be willing to report a crime to police
- ◆ an increase in the number of crimes that are reported by youth
- ◆ increase in proportion of students who would be willing to provide information to police about a problem or a crime

Reduce the impact and effects of bullying and cyber-bullying.

Performance Objectives/Indicators:

- ◆ increase in proportion of students who received information on bullying and/or cyber-bullying
- ◆ decrease in proportion of students who say they were victims of bullying and cyber-bullying
- ◆ decrease in the proportion of student who say they are concerned about bullying in/around their school

Focusing on violent crime, prevent and decrease the victimization of children and youth.

Performance Objectives/Indicators:

- ◆ decrease in number of children (0-11 years) victimized by violent crime
- ◆ decrease in number of youth (12-17 years) victimized by violent crime

Priority: Focusing on Violence Against Women *(One goal removed)*

Women who have been victimized by violence remain a focus for the Toronto Police Service. Service goals will build on those of the previous Business Plan. The Service will continue to improve response to victims of sexual assault and domestic violence by providing needed supports and by increasing trust and confidence in the Police Service's ability to meet the diverse needs of victims. These goals address the Statistics Canada finding, noted in the 2008 Environmental Scan, that fewer than 1 in 10 sexual assault victims report to police, and address other issues raised in focus groups and telephone follow-up calls with victims of domestic violence.

Goal:

Focusing on domestic violence:

- (a) Improve the provision of support, follow-up information, and referrals to victims, and
- (b) Increase reporting by victims.

Performance Objectives/Indicators:

- ◆ increase in perception of agency workers of improved provision of follow-up information by police
- ◆ increase in perception of agency workers of improved provision of referrals by police
- ◆ increase in perception of agency workers of trust/confidence in police
- ◆ increase in number of domestic occurrences reported to police

Priority: Focusing on People with Distinct Needs *(No changes made)*

The concerns of and issues related to people with distinct needs were raised in a number of consultations held in early 2008 and are discussed in the 2008 Environmental Scan. Once again, the need to build trust between the police and these people was highlighted. With the aim of fostering mutually respectful and beneficial relationships, the Police Service is committed to providing professional and non-biased service to all those who need them.

Goals:

Develop trust between the police and groups such as seniors, Aboriginal people, newcomers to Toronto, homeless people, and those with mental illness.

Performance Objectives/Indicators:

- ◆ increase in perception of agency workers (dealing with each of the listed groups) of trust/confidence in police
- ◆ increase in perception of agency workers (dealing with each of the listed groups) of police understanding of the needs of their client population

Ensure that all victims of violence, including the families and friends of victims if appropriate, have access to victim services and support.

Performance Objectives/Indicators:

- ◆ increase the number of referrals to Victim Services

Priority: Targeting Violence, Organized Crime, & Gangs *(No changes made)*

In the Service's 2007 community survey, people identified guns and gangs as two of the most serious policing problems in Toronto. Drugs were identified as a serious problem for some neighbourhoods. In consultations with the public and with Service members, participants also stressed drug distribution and use as sources of violence and crime, and as having a strong negative impact on the quality of life in those affected communities. The perceived increase in crack houses and marijuana grow-ops in residential neighbourhoods was a particular concern for many in the community. Organized crime groups are frequently cited as using violence and facilitating drug production and distribution. The Police Service is committed to enforcement activities that will address these critical issues affecting community safety.

Goals:

Reduce violent crime, especially shootings, and illegal gun activity.

Performance Objectives/Indicators:

- ◆ decrease in number of shootings
- ◆ increase in number of firearms seized
- ◆ decrease in rate of violent crime
- ◆ increase in community perception of police effectiveness in dealing with gun crimes

Reduce the availability and impact of drug activity on neighbourhoods.

Performance Objectives/Indicators:

- ◆ increase in number of persons charged with drug offences
- ◆ decrease in proportion of community concerned about drugs in their neighbourhood
- ◆ increase in community perception of police effectiveness in enforcing drug laws

Priority: Delivering Inclusive Police Services *(One goal removed)*

Although the members of the Service generally enjoy the good opinion of our communities, we must always strive to preserve and improve this positive regard. The manner in which members interact with the community, and each other, can be a major factor in the success of a police service. The Toronto Police Service is committed to providing, internally and externally, equitable and professional services. Further, recognizing and valuing the diversity of the city, the Police Service must ensure that we continue to strive to be representative of the communities we serve.

Goal:

Focusing on interactions with others:

- (a) Provide policing services to and/or interact with members of the community in a professional, non-biased manner, and
- (b) ensure interactions with other Service members are professional, non-biased, and respectful.

Performance Objectives/Indicators:

- ◆ increase in community perception of professionalism during contact with police
- ◆ decrease in proportion of community who believe that Toronto Police officers target members of minority or ethnic groups for enforcement
- ◆ decrease in member perception of internal discrimination
- ◆ decrease in number of internal complaints related to harassment and discrimination

Priority: Addressing Community Safety Issues *(Three goals removed; remaining goal revised)*

Members of the community should be able to move about and conduct their personal and business lives without fear of danger, crime, intimidation, or harassment. The Police Service must ensure that we have the ability and are prepared to deal with incidents that can affect a large number of people – large-scale emergency events, hate crime, crime facilitated by technology, or crimes which may affect entire communities. At the same time, the Service must strive to provide people with the information they need to realistically assess safety and levels of crime in their communities.

Goal:

Improve the Service's ability to analyze crimes committed using technology (computer-assisted crimes), particularly frauds and identity thefts targeting seniors.

Performance Objectives/Indicators:

- ◆ Service ability to track occurrences of computer-assisted frauds, computer-assisted identity thefts, and computer-assisted hate crimes
- ◆ increase in number of reported computer-assisted frauds
- ◆ increase in number of reported computer-assisted identity thefts

Priority: Ensuring Pedestrian and Traffic Safety *(One goal removed; remaining goal revised)*

The traffic on Toronto's roadways affects almost everyone within the City and was a consistent theme at public meetings held early in 2008. It was also identified in the Service's community survey as one of the most serious problems affecting neighbourhoods. The safety of pedestrians, cyclists, and drivers and the safe and efficient flow of traffic are, therefore, of significant concern to the Toronto Police Service. Mobilizing local communities to respond to local traffic problems will assist in sustaining successful efforts and improving neighbourhood roadway safety.

Goal:

Increase traffic enforcement and education to better protect the safety of pedestrians, cyclists, and drivers.

Performance Objectives/Indicators:

- ◆ decrease in number of road-related injuries to pedestrians
- ◆ decrease in number of road-related injuries to cyclists
- ◆ decrease in number of road-related injuries to drivers
- ◆ increase in pedestrian perception of safety
- ◆ increase in cyclist perception of safety
- ◆ increase in driver perception of safety
